OBJECTIVE

I am keen to contribute my expertise in project management alongside a growing proficiency in IT to a visionary enterprise, as I pivot into the tech industry. My ambition is to align with an organization that not only leads in innovation but also fosters a culture of professional development and job enrichment. This transition reflects my dedication to strategic planning and my genuine enthusiasm for technology's transformative power.

WORK HISTORY

FREELANCE :: YTECHNOLOGY HOLDINGS, LLC :: ATLANTA, GA :: 2018-CURRENT

Led the creation and deployment of mobile and web solutions, optimizing for usability and search engine visibility through collaborative client engagement.

- Spearheaded the design and development of intuitive and professional websites, enhancing client digital presence.
- Engineered robust back-end hosting environments to ensure scalability and security.
- Crafted wireframes and prototypes, translating UI/UX designs into functional user interfaces.
- Executed SEO strategies to boost web visibility and search engine rankings for clients.
- Collaborated with clients to ascertain project specifications and requirements, delivering tailored web solutions.

WEB COORDINATOR :: PHD CHURCH :: DECATUR, GA :: 2019-CURRENT

Revamped and managed the church's web presence, focusing on design, functionality, and SEO to enhance user experience and site performance.

- Revitalized and maintained the organization's web infrastructure, ensuring high usability and contemporary design.
- Supervised web content updates, secure payment integrations, and user authentication protocols.
- Analyzed and applied SEO best practices to increase website traffic and user engagement.

OPERATIONS DIRECTOR :: DAVIS WINDOW & DOOR :: ATLANTA, GA :: 1999-2023

Strategically managed a multimillion-dollar project portfolio, streamlining operations and elevating client satisfaction through effective process development and team leadership.

- Directed a dynamic team managing projects with an annual portfolio of \$10M.
- Orchestrated comprehensive project timelines, driving all phases from planning to successful execution, while adhering to budget constraints.
- Formulated and standardized operational processes for all production departments.
- Implemented problem-resolution strategies, empowering staff to maintain project momentum.
- Coordinated the planning and execution of commercial projects.
- Trained new employees on operations and responsibilities.

SPOTLIGHT PROJECTS
